

Loh Jia Xin

Jr. Product Design Consultant, UX/UI

February 21, 2023

To Whom It May Concern,

I am writing to highly recommend Jia Xin as a product designer (UX/UI). As the VP of Design at OnlinePajak (Achilles Systems Pte. Ltd.), I had the pleasure of managing JX for three months, and I was consistently impressed with her skills and dedication to the job. She has been on the job for a quite short time, but it's clear that she gets it!

JX was brought on as a consultant through Viseo to help us with a challenging design project (Transactions product), and she quickly became an invaluable member of the team. She was able to jump into the project seamlessly, bringing fresh ideas and a user-centered approach to the table. JX's work was always of the highest quality, and they were able to deliver on time and on budget.

In addition to her technical skills, JX was a great communicator and collaborator. She was able to work well with the design team and the product owner, always keeping everyone informed and aligned. Her positive attitude and enthusiasm for the project were contagious, and they helped to create a great working environment.

Overall, I highly recommend JX as a product designer. She is a talented and hardworking individual who would make a valuable addition to any design team.

Unfortunately, due to budget constraints, I couldn't offer Jia Xin a full-time position at my company, but she would be my first choice for a Junior Product Designer!

Please do not hesitate to reach out to me if you have any questions or would like further information about Jia Xin.

Sincerely,

Kamil Gottwald

VP, Design @ OnlinePajak

TO WHOM IT MAY CONCERN

LOH JIA XIN (NRIC Number: T0222979F)

Jia Xin enrolled in Nanyang Polytechnic (NYP) in April 2019 to pursue a Diploma in Multimedia & Infocomm Technology (UX Design & Engineering). Jia Xin is a hardworking and diligent student. Over the three years, she accumulated an overall GPA of 3.16 and have shown commitment by rendering her service in various outreach and co-curricular activities.

Jia Xin is a late bloomer who discovered her interest at a later stage of her academic studies. She is a determined, self-motivated, and well-mannered student. She has proven that through hard work and dedication, she can accomplish any task she sets herself to achieve.

For her final semester in NYP, Jia Xin excelled in the collaboration with various stakeholders to create meaningful solutions for various industry and teamwork. Jia Xin was tasked to work on Brite.sg and KKH-PCF SparkleTots Mission Impossible project. She was part of the UXUI team to gather requirements, analyse data and design digital deliverables to cater to the needs of the industry partners. As the coordinator of the team, Jia Xin also ensures that her group mates are progressing well, managing their tasks and work cohesively within a team.

During her internship experience in Viseo, Jia Xin demonstrated a proactive role in researching, communicating, and delivering various established UX methods and deliverables within her team and across departments, making her contributions an asset to the organisation. Jia Xin helm major projects and was the lead UX/UI designer for Clinelle e-Commerce website's user interfaces. She also contributed to VISEO's biggest project - Fintech Bridge (a venture of Standard Chartered Bank), where she analysed and designed multiple web content and deliverables which were subsequently optimised for mobile use. Jia Xin has shown a positive and remarkable aptitude for acquiring new skills.

In school, Jia Xin is respectful, caring, and sensitive to the needs of her peers, she is well-liked by many. Her tutors are of the opinion that her steady character, coupled with her ability will stand her in good stead in the future.

Ms Cheng Yu Hui
Lecturer/Course Coordinator

In Singapore

To Whom it May Concern,

Jia Xin Loh worked with me as a UX/UI Designer from June to August 2021. She created pages and designs for a web and mobile platform. Her responsibilities included requirements gathering, analysis and design of multiple and complex web pages and adapting those pages to mobile version using Adobe XD.

During her internship, Jia Xin proved herself to be a dependable employee and a hard worker with solid problem solving and technical skills. I was always impressed by Jia Xin's ability to complete the work assigned to her on time. Jia Xin not only met deadlines but were also always very eager to help the development team by sharing and presenting her design in a very professional way.

Jia Xin takes her work very seriously and she is very careful and cautious about her work. That means she repeatedly runs checks on her designs before making them public to ensure there aren't any hiccups. Her quick thinking and cautious personality have helped the company be successful on the assigned project.

Jia Xin would be an asset to have on any team. She is a talented, hard-working employee, and I am sad to see her leave. I strongly recommend Jia Xin for any junior designer position. And with the right guidance and training, I have no doubt Jia Xin could excel in an upper-level designer position.

I would be more than happy to provide more details if you need them. Please feel free to email me at margaux.papasian@gmail.com.

Yours Sincerely,

Margaux Papasian
Project Manager at VISEO APAC
